

Sambhar Salts Limited has entered into contract with Libas Consumer Products Ltd. on 11.08.2021 for selling 50000 MT of common salt and it will explore market for our various types of salts. Lake salt produced by Sambhar Salts Limited in India has PH value of 9 and above and its black salt have PH value more than 10.5 and is naturally iodized and blessed with rare minerals and have numerous therapeutic usage for various ailments.

Libas Consumer Products Limited has informed "it is supplying imported rock salt and selling through its marketing network. It is the biggest supplier of a high-quality rock salt to TATA salt and has the Biggest-selling network in India with All India wholesale traders as their clientele. In this Covid phase, Rocksalt is selling like hot cake due to the immunity boosting factor. The company has informed that it is having several Pharma companies as its customer base and high PH value salts are in good demand in Pharma and Health care industries."

This collaboration is expected to open new avenues for the company.
